

WHAT IS THE PROGRAM ABOUT?

This program wasn't designed on a whiteboard, it was built by pushing my own limits day after day until there was nowhere left to hide. I wanted to know how much I could truly endure and how far I could go when recovery was short, motivation dropped, and stopping would have been the sensible choice. **Impossible X** is for those who have been training consistently and still know there is another gear left. It is for anyone who is tired of comfortable workouts and predictable progress. This is where you stop pacing yourself and start showing up fully, giving everything you have that day.

The workouts are demanding, the volume adds up, and your strength, endurance, and grit are all tested. Not to break you, but to show you what you are actually capable of. If you have ever wondered whether you have truly trained at your full potential, this is where you find out. There are no half measures here, you go all in or you do not start.
